***Snow Mines & Minerals***

**MINE OWNER AND PRODUCERS OF QUALITY QUARTZ**

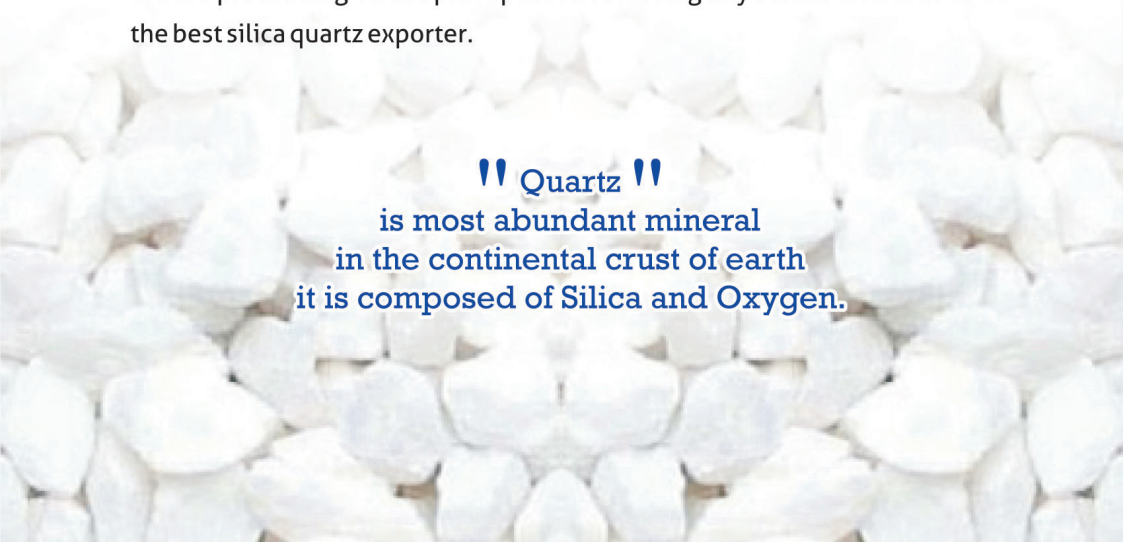

## Company Profile

Snow Mines & Minerals is an company in the production of High Quality and High Purity Quartz Grits and Lumps. The Quartz produced is of Snow White quality which is being used in various countries and has enormous applications. The Silica content in quartz is more than 99.5%. High Quality Quartz becomes a strategic raw material for industries making Silicon Chips, Solar Pannels & Lavashing Counter Tops.

Snow Mines & Minerals aim to supply best quality Quartz as we have our own mines at District - Chittorgarh, Rajasthan (INDIA) of Snow White Quality.

Our Motto to reach the Worldwide Markets to make best use of Snow White Quartz produced.

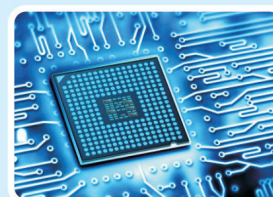

We are proceeding on the principal of not leaving any stones unturned to be the best silica quartz exporter.

**!! Quartz !!**  
is most abundant mineral  
in the continental crust of earth  
it is composed of Silica and Oxygen.

## USES OF QUARTZ

High Transparent  
Quartz is used in  
**SILICON CHIPS.**

Quartz is  
also used in  
**SOLAR PANELS.**

To Design  
**LAVISH DESIGNER  
COUNTER TOPS.**
